Sand Table with Locking Lid

(Includes: Sand Table with Locking Lid and Sand Table Activity Panel Add-On)

Early Learning Content Areas that apply to using The Adventurous Child Sand Table:

- English/Language Arts
- Mathematics
- Science
- Social Studies
- Physical Education and Health
- Visual Arts

This is what the children are learning when they use the Sand Table:

English/Language Arts

Reading: Word Recognition, Fluency, and Vocabulary Development – Vocabulary and Concept Development

- Use new vocabulary learned from experiences.

Listening and Speaking: Listening and Speaking Skills, Strategies, and Applications - Comprehension

- Follow one-step spoken directions without prompts.
- Use trial and error to solve a simple problem.

Mathematics

Number Sense: Number Relationships

- Identify the concept of “less.”
- Give “some” and give “the rest” when asked.
- Identify the concept of none.

Algebra and Functions: Finding Patterns and Relationships

- Identify attributes of objects.

Geometry: Recognizing Common Geometric Shapes and Using Directional Words

- Sort by one attribute (e.g., size, shape, color).
- Give clues for finding hidden objects.
- Use “in” and “out” to indicate where things are in space.

Measurement: Time and Measurement Relationships

- Use any descriptive word or gesture to express amount or size.
- Use cups and tools in sand and water.
- Identify similarities and differences in objects.

Problem Solving: Ability to Reason, Predict, and Problem Solve Through Exploration

- Make simple cause/effect predictions.
- Create a collection equal to objects in a collection already constructed.
- Use a tool in a new way.
- Use trial and error to solve problems.

Science

The Nature of Science and Technology – Scientific Inquiry and Process

- Observe and describe properties of objects.

- Use the five senses (touching, smelling, seeing, hearing, tasting) to investigate the environment and to gather information.
- Ask and answer questions about his world.

Scientific Thinking – Computation and Estimation

- Manipulate a variety of objects and tell about what is observed (e.g. more than, less than, equal to-same).

Scientific Thinking – Shapes and Symbolic Relationships

- Talk about the fact that everything has a shape.
- Observe shapes and look for objects that are the same shape.

Environments – The Physical Setting

- Participate in activities using materials with a variety of properties (e.g., color, shape, size, name, type of material).
- Investigate and talk about the characteristics of matter (e.g., liquids and solids, smooth and rough, bend-not bend).
- Investigate the physical surroundings by digging in dirt, collecting and classifying rocks, recognizing changes in weather.
- Gain a natural sense of the forces of nature by experiencing wind blowing, temperature changes, changing seasons of the year, or things falling.

Communication – Sharing Observations and Discoveries

- Identify attributes or characteristics for comparison (e.g., color, size, gender, shape).
- Participate in discussions related to their findings.

Social Studies

Civics and Government – Foundations and Functions of Government and Its Citizens

- Follow simple directions.
- Start sharing some objects with others.

Geography – Places and Regions and Environment and Society

- Use words hard/soft, rough/smooth, and water/land when describing surfaces.
- Help clean up after doing an activity.

Physical Education and Health

Application of Movement Concepts and Principles to the Learning and Development of Motor Skills

- Identify and use a variety of spatial relationships with objects (e.g., the child will move self and/or object over, under, beside, and through as directed by an adult).

Enjoyment of Motor and Sensory Experiences: Exhibiting Self-Confidence

- Participate in a variety of gross/fine motor and sensory activities.
- Attempt novel gross/fine motor and sensory activities.
- Demonstrate a determination to develop skills through repetitive practice.

Visual Arts

Uses Symbols, Elements Such as Shape, Line, Color, and Texture and Principles Such as Repetition in Art Experiences

- Use different colors, surface textures, and shapes to create form and meaning.
- Enjoy repetition of materials and activities to further explore, manipulate, and exercise the imagination.
